

ALI EMAD

Telecommunications & Electronics Engineer | AFRO Academy
Email: Aliemadali53@gmail.com | Phone: +201090874481 | LinkedIn: linkedin.com/in/ali-emad-8866a3307
Location: Al-Mansheyya Al-Kubra, Kafr Shukr, Qalyubia Governorate, Egypt
CDMA, UMTS, HSPA and 3G Drive Test and Post-Processing | Netova

PROFESSIONAL SUMMARY

Highly motivated Telecommunications & Electronics Engineer with in-depth expertise in mobile network technologies, RF engineering, and network planning. Proven track record in driving successful projects and optimizing network performance.
5G SA, 5G NSA and 5G RF Planning and Design | Netova
Telecom and RF Engineering Fundamentals Training | Netova

CORE COMPETENCIES

Mobile Network Technologies: GSM, GPRS, EDGE, CDMA, UMTS, HSPA, LTE, LTE-A, LTE-A Pro, 5G SA, 5G NSA
Network Analysis: Drive Test, Post-Processing, LTE Planning, 5G RF Planning, RF Engineering, TEMS Investigation
Technical Skills: Python, Machine Learning, IoT (Raspberry Pi, ESP modules), Cloud Services, Network Simulators
Professional Skills: Communication, Analytical Skills, Time Management, Problem-Solving, Data Analysis

EDUCATION

Bachelor of Engineering in Telecommunications and Electronics | Al-Madinah Higher Institute of Engineering and Technology | Expected Graduation: 2026
Cumulative GPA: 2.96/4.0
Engineered comprehensive data collection and processing pipeline capturing RSSI, RSRP, RSRQ, SINR, latency, packet loss, and throughput metrics. Implemented real-time monitoring system for real-time network performance analytics.

PROFESSIONAL EXPERIENCE

Technical Trainee - Telecom Package Program
AFRO Academy, Egypt | June 2024 - July 2024
Seamlessly integrated multiple IoT devices including Raspberry Pi and ESP modules with cloud-based services for real-time data monitoring and analysis.

- Developed and trained a Random Forest machine learning model achieving accurate predictions of network stability.
- Synthesized telecommunications expertise with modern machine learning to address critical network challenges.
-
-
-

PROFESSIONAL CERTIFICATIONS & TRAINING

-
-
-
- 1G, 2G, 3G, 4G, 5G | GSM, GPRS, EDGE, CDMA, UMTS, HSPA, LTE, LTE-A, 5G SA/NSA
-
- Drive Testing, Post-Processing, Network Planning, 5G RF Planning, TEMS Investigation
-
- Python, Random Forest ML, Raspberry Pi, ESP modules, Cloud Services, Network Simulators

KEY TECHNICAL PROJECT

AI-Based Smart Network Monitoring and Failure Prediction System

-
-
-
-
- Communication: Excellent interpersonal skills with ability to explain complex technical concepts clearly.
- Technologies: Python, Random Forest Algorithm, IoT Platforms, Cloud Services, Data Analytics.
- Analytical Skills: Strong capability in data analysis, RF parameter interpretation, and performance troubleshooting.

TECHNICAL SKILLS BREAKDOWN

Network Technologies: GSM, GPRS, EDGE, CDMA, UMTS, HSPA, LTE, LTE-A, 5G SA, 5G NSA
Network Analysis & Tools: Drive Test, Post-Processing, LTE Planning, 5G RF Planning, RF Engineering, TEMS Investigation
Software & Platforms: Python, Machine Learning, IoT (Raspberry Pi, ESP modules), Cloud Services, Network Simulators

PROFESSIONAL ATTRIBUTES

-
- Arabic: Native Fluency
-
- English: Professional Proficiency - suitable for technical documentation and workplace communication

LANGUAGES

-
-
